

# Natural Derived Analysis

## Biomass Analysis of Natural Dye

### Dye Info

Dye	Indigo
Raw Material	Leaves of Indigo
Scientific Name	Indigofera tinctoria
Certification	GOTS-IV

### Test Result

pMC*	47.04 +/- 0.18 pMC
REF*	100.0; = pMC/1.000

Tested by : **BETA Analytic**

- **pMC** - Percent modern carbon
- **REF** - Atmospheric adjustment factor

### Analysis Result

**47% Biobased carbon**

Indigo dye is extracted using food grade chemicals from natural indigo, so the bio based carbon content is less than 100%.

- Biobased Carbon
- Fossil Carbon
